Sausage run game for free

I just downloaded this app, and I think it's a lot of fun! It's so addictive, I'm always trying to beat my high score, which is only 500 so far. I think it's very cool, and as I said before, addictive. I'm surprised that more people don't know anything about this app, I've only had it for a few hours, and some of my friends already know it! Is... is that bad? I don't know! Anyway, the game is very self-explanatory and does not require any instructions, hints or small starter stuff, or whatever you call it. It's one of those games where hours pass that you buy, and you barely notice it, or is that just me that this is happening? But when I run, I notice that the sign is always too high for me to reach it, because the sausage always bends down. And why is the white sausage slower than the smoked sausage? You (developers) should try to make the characters faster as you (players) rise. Just a thought. Oh, and if I run and I get over the grill, I'll pass it, but then when I'm off and it's still on the screen and it lights up, I'll be burned! This has happened more than once, and I don't know if this will happen to anyone else, but I want it fixed Hey Steve, We're so glad you have fun with our delicious sausages! And don't worry - we're just as addicted as you ;We'll take your comments about the shield and character speed into account. Regarding your problem with the grill, we would like to help you.
